Re: Launching announcement of icdeeewana

Dear Professor Demiray,

Thank you for sending me the announcement of the creation UDEEEWANA. It is good that you should try to sustain in some way the excellent network of contacts that you

built up when doing your major research report on ODL in central and eastern Europe and western Asia and Northern africa.....

Yours ever

John

Ugur,

I hope all is well with you. Bill Catchings shared your contact information with me and the link to the UDEEEWANA website. Looks like you and your team have done a lot of wonderful work on the organization, I like what is on the site so far.

Is there a way to get on an email list to get regular updates about activity?

I'd love to keep it on my radar as you progress.

I look forward to hearing from you.

Best,

Dear Ugur,

Thank you very much for the information. Amazing, you have done huge work. I am going to read it carefully. Yes, Arusyak is member of Armenian E-Learning Network

(ArmeLNet) and represents National Polytechnic University. Last year we also started our Journal, I just attached those parts, which are on English

As I have promised, please find some materials from my side.

Also some links: <https://www.facebook.com/ArmeLNet>.

Have a nice day
